The event starts on July 11 in the Foffani wine cellar in Trivignano Udinese with the "Experimental Violin and Piano Sonata". It continues on July 25 in the Zorzettig wine cellar in Cividale del Friuli, where you can enjoy the performance of "Dena De Rose Quartet feat Piero Odorici" in the context of the Mittlefest 2021. Nature Bathing among the vineyards

New this year is the nature bathing experience that offers participants a barefoot walk among the vineyards and a moment of mindfulness to awaken the senses: enjoying the environment, and the products will be truly all-encompassing. The vineyards of some of the wine cellars in Friuli Venezia Giulia will be the backdrop to the activity. They will offer their wines for tasting and a visit to the company. First date June 18, in Tenuta Luisa in Mariano del Friuli.

Family&Taste

Friuli Venezia Giulia is the favourite destination for families, thanks to the spaces suitable for children. The area's educational, agricultural, and wine farms have also thought of experiences to propose spending an alternative day with children or grandchildren and discovering the typical products. Until September, it will be possible, for example, to get to know the world of bees, create a herbarium, get in touch with animals in the Karst, or learn how to cook gubana and strucchi (typical cakes) of the Natisone Valleys, take a carriage ride with all the family or create a small vegetable garden with the Chiocciolorto experience.

Harvest&Taste

Harvesting is a very special moment for a producer. Some wine cellars in the region want to share the atmosphere of this particular time of the year and offer wine tourists a day among must and grapes waiting for the new vintage. The dates of the new Harvest&Taste format will be available soon at www.tastefvg.it.

Cantine e Vigneti Aperti (Wine cellars and Open Vineyards)

Several weekends designed for wine enthusiasts, including visits to the vineyards and cellar, aperitifs in the vineyard, sensory workshops, guided itineraries, and dinner with the winemaker. Each participating wine cellar has thought of something special to allow tourists to get to know the soul of their products and the great wines of Friuli Venezia Giulia. Another proposal is Cantine Aperte, which has always been a reference event for wine tourism, to savour the stories of regional viticulture.
